NEBOSH HSE Certificate in Health and Safety Leadership Excellence (HSL)

ACCREDITATIONS

CO-FUNDED

NEBOSH and the United Kingdom's Health and Safety Regulator, the Health and Safety Executive (HSE), have jointly developed the NEBOSH HSE Certificate in Health and Safety Leadership Excellence.

Health and safety is a key performance measure within successful and forward-thinking organisations. Effective leaders understand that health and safety is not just a moral imperative, but also contributes to the achievement of objectives across the organisational spectrum covering finance, operations, compliance and governance.

Productivity improvements, competitive advantage, talent retention and effective risk management are just a few of the things which flow from strong organisational health and safety performance and culture.

Whether it is finance, marketing, human resources, or health and safety, leaders should always seek to develop their high-level understanding within each component part of their organisation in order to monitor and positively influence overall performance. The NEBOSH HSE Certificate in Health and Safety Leadership Excellence is designed to support both leaders and aspiring leaders in gaining core understanding of how their behaviours and responsibilities directly impact on health and safety management.

General objectives

Unit HSL1: Health and safety leadership:

- The foundations of health and safety leadership
- Human failure and decision making
- Leadership

Specific objectives

Element 1: The foundations of health and safety leadership

- The reasons for and benefits of health and safety leadership excellence, the importance of an agreed health and safety vision and the business benefits excellent health and safety leadership brings;
- The moral, legal and financial reasons for good health and safety leadership;
- How leaders can gain assurance that health and safety is being managed effectively;
- How good leadership can positively influence health and safety culture.

Element 2: Human failure and decision making

- Understand how human failure can impact on health and safety culture and how the 'Make it happen' model can help to change behaviours;
- Recognise how mental short cuts, perception biases, habits and beliefs can influence the decision making process.

Element 3: Leadership

- The meaning of transformational, authentic, resonant and transactional leadership styles;
- The application of the five values and supporting foundations of the HSE's health and safety leadership model;
- How relationships with the workforce can be built by effective leadership communication.

Target Audience

- This qualification is for senior business leaders or anyone who aspires to this role in the future.
- It will help you become a better health and safety advocate and influencer by highlighting the key areas to focus on to make a difference.
- It is relevant for all business leaders working in any sector, anywhere in the world.

Prerequisites

Não há requisitos de entrada específicos, mas é importante que os alunos tenham um padrão adequado de inglês para entender e articular os conceitos contidos no plano de estudos.

Duration

7 hours

Form of organization of training

Classroom training.
